

PREPARING FOR A STORM SURGE

Storm surge event in 1985

Present day location of the Buccaneer restaurant and beach hotel.

- Check your house and land for any potential dangers related to flooding. Identify and repair any vulnerability.
- Learn how to turn off the gas/electricity in your house. Local authorities may instruct you to shut these off.
- Do not store important documents in the basement.
- Ensure that your family has an emergency kit and plan.
- Ensure your emergency kit is portable, use a back-pack or a suitcase with wheels.
- Your local chapter of St. John Ambulance can teach you first aid and CPR.
- Your local Red Cross can teach you survival techniques in the water through their swimming and boating courses.
